

## *MAS Equity Partners invests in Europa América Laboratorios*

---

**November 14, 2018** – MAS Equity Partners (MEP), through its fund MAS Equity Fund III, closed an investment in Europa América Laboratorios (Eurolabs) to support its expansion plan in Latin America.

Founded in Spain in 2014, Eurolabs is an operator of in-hospital clinical laboratories that offer generic, specialized and genetic exams. The company operates one of the most renowned reference laboratories in Spain and an international network of sampling locations across Spain, Peru, Colombia and Ecuador.

Leveraging on its experience in the healthcare industry, MEP will support the expansion of Eurolabs across Latin America while strengthening its corporate governance and implementing best business practices.

MAS Equity Partners is a private equity fund manager specialized in growth equity and minority investments in the Andean region. With over ten years of operations, three private equity funds and more than US\$ 200 million in assets under management, MEP has sponsored investments in successful companies like Bodytech, Andres Carne de Res, OPL Carga, Clínica Las Américas and Rocsa Colombia. To date, MAS Equity Partners has closed twelve investments and six successful exits.
